Add post

Click - opens image upload dialog

Click - opens date selection

Type in content here look at the placeholders for extra information

Click - opens select image dialog

Click - adds post to database

Side notes:
- Only be able to click add post when you have filled in the majority of the inputs

- If you miss anything this can always be updated on the manage post section.

- Click on the browse to select images from computer.

-Click boxes to 'tick' which images you want to use for the image gallery of the post.

Manage posts

Title	Excerpt	Date	Updated	Action
New post	New Excerpt	April 16th 2020	5 days ago	Edit Delete
sfgsgd	dsggdssdggdsgsd	April 8th 2020	7 days ago	Edit Delete

Yes, delete   No, do not delete it

Side notes:

- Clicking the delete button prompts you

- Clicking the edit buttdon opens up an edit dialog to edit your posts the edit dialog is similar to the add post section but instead you will be able to see the current post information.

- To select a new image for the post you have a new option to select one image that is already stored in the database or you can upload a new one.

- To delete gallery images just hover over the image and click the gallery image.

- If you dont click "edit" none of your changes will be updated.

The history and post sections are exactly the same the only difference is the data is saved in a different location but they behave the same.

Upload a new image

Close

Click - opens image upload dialog

Click - adds to data-base

Type in content here look at the placeholders for extra information

Side notes:

- Only able to add to database once the name and description are filled in

- Any new posts,partners,drivers etc added to the database will show on the front page instantly.

When uploading images a loading sign will show depending on how big the file is it will say loading for a while for performance and upload speeds make sure the images that are uploaded are not much bigger that 1mb and keep sizes the same for consistancy throughout the website.

Recomendations:
image dimensions = 2560×1250
